G1M Mission

Carry more. Do more.

The G1M Mission is the G1 with a longer rear frame. A long seat for two, optional high-load racks and room for spare batteries. A passenger to dinner, the week's shopping home, a tent and two bags to the coast, on a bike that still slips through traffic like a G1.

From €9,495 incl. VAT, one price across the EU. Founder's Circle reservation: €100, fully refundable, €1,000 off the retail price. First deliveries planned for 2028.

PRICE AND USE

Starting price	**€9,495 incl. VAT**
Made for	Two-up and everyday carrying

PERFORMANCE

Continuous power	11 kW (A1 licence / 125cc class equivalent)
Peak power	26.6 kW (36 hp)
Torque	56 Nm continuous, 85 Nm peak (motor)

Model kit	Extended frame, long seat

OWNERSHIP

Licence	A1, or B in some countries
Warranty	2 years bike (unlimited km), 3 years or 36,000 km powertrain, 6 years battery (≥ 80% capacity)

STANDARD MODEL KIT

Spoke wheels	Spoked rims flex and absorb hits on rough ground.
Mixed-terrain tyres	Metzeler Karoo Street. A tread for gravel and dirt that still holds on wet asphalt.
Extended rear frame and long seat	A longer rear frame makes room for a passenger or more cargo, with a long two-person seat on top.
Multifunctional platform	The rear platform works as a cargo carrier or a seat. Side bumpers protect it with large loads.

OPTIONAL

Knobby tyres	Deep tread blocks bite into loose ground, mud and packed snow.
Hand guards	Shield your hands and levers from branches, wind and cold.
Wind shield	Takes the wind off your chest at higher speed.
Dash and light protector	A guard over the 5" display and headlight.
High-load side racks	Bolted to the main frame, up to 68 L a side (136 L in total). Bags, a cool box, hard cases or spare batteries.

Every G1 shares one frame, one powertrain and one wheel size, with over 85% of components in common. Engineered in Italy's Motor Valley.
