G1S Street

The pulse of the city.

The G1S is the platform in its purest form. City streets on weekdays, suburban roads at the weekend. Cast wheels and road tyres keep it quick and light in traffic. Ride to work, park on the street, carry both batteries upstairs and charge them at your desk.

From €8,495 incl. VAT, one price across the EU. Founder's Circle reservation: €100, fully refundable, €1,000 off the retail price. First deliveries planned for 2028.

PRICE AND USE

Starting price	**€8,495 incl. VAT**
Made for	City and suburbs
