G1X Scrambler

Take the long way home.

The G1X takes the same platform off the tarmac. Spoke wheels and mixed-terrain tyres handle gravel, cobbles and forest tracks. Hand guards and a protector over the dash and headlight keep the vital parts intact. Side racks carry your bags for the weekend.

From €9,495 incl. VAT, one price across the EU. Founder's Circle reservation: €100, fully refundable, €1,000 off the retail price. First deliveries planned for 2028.

Warranty	2 years bike (unlimited km), 3 years or 36,000 km powertrain, 6 years battery (≥ 80% capacity)

STANDARD MODEL KIT

Spoke wheels	Spoked rims flex and absorb hits on rough ground.
Mixed-terrain tyres	Metzeler Karoo Street. A tread for gravel and dirt that still holds on wet asphalt.
Hand guards	Shield your hands and levers from branches, wind and cold.
Dash and light protector	A guard over the 5" display and headlight.
Racks	A back rack rated 10 kg and side racks for bags, panniers or hard cases.

OPTIONAL

Knobby tyres	Deep tread blocks bite into loose ground, mud and packed snow.
Wind shield	Takes the wind off your chest at higher speed.
Leg guards with extra lights	Steel guards protect your legs and the bike, with extra lights built in.

Every G1 shares one frame, one powertrain and one wheel size, with over 85% of components in common. Engineered in Italy's Motor Valley.
